

Hello Everyone!

I hope this email finds everyone well!!

Today has started off great! We are able to get in the pool thanks to slow winds pushing to the south of the pools. The current Air quality is at a **14**. We anticipate a change in the winds this afternoon with possible closures into the late part of the afternoon.

We will continue to monitor and keep you updated with any and all changes.

We expect all afternoon programming to run as normal.

Stay positive! We got this!

- Steve
